THREE KILLED IN CLASH IN THE RUHR

Two French Soldiers Reported Slain
Make Death Toll For Invaders
Three in Two Days

NEW ULTIMATUM TO ALLIES

Turks Issue Another Warning, Giving
French and British Three Days
to Withdraw War Vessels

(By United Press)

The killing of two French soldiers and a German civilian in a clash at Gelsenkirchen, West Phalia, was reported from Berlin today as the French completed plans to prevent export of Ruhr products to Germany and to take over all railroads in the occupied areas.

The French soldiers reported slain, make the death toll for the invaders, three within two days. A trooper wounded at Boshum Thursday died Saturday night.

Simultaneously, Europe was electrified by a report that Mustapha Kemal, Turkish war lord, was at Smyrna, where allied warships, in the harbor, await militant action by the Turks. The allied governments are not certain when the latest Ottoman ultimatum to withdraw war vessels from Smyrna expires. A battalion of the Duke of Wellington's regiment has been ordered from Gibraltar to the Near East.

Official announcement was made by France today that exports from the Ruhr to allied countries or even to unoccupied Germany upon payment of heavy duties, may be permitted. President Ebert went to Karlsruhe to day, receiving an enthusiastic welcome.

Constantinople, Feb. 12.—The allies having refused to heed an ultimatum that foreign warships over 1,000 tons leave Smyrna harbor last week, the Turks have issued another warning, this time giving France and Britain three days in which to withdraw their war vessels.

There is no indication the second ultimatum will receive more consideration than the first. Eleven allied cruisers are standing by in Smyrna harbor, defying the Turks to take advantage of the "liberty of action", to which they lay claim in their latest threat.

Mustapha Kemal and Ismet Pasha are to meet at Ismet, where the latter will report on the Lausanne conference. Ismet has been delayed on his homeward journey by snow storms, and was at Bucharest Sunday. Upon the delegate's report to Mustapha Kemal depends the next move of the Ankara government.

PROBE BEGINS AT MUNCIE

Exhaustive Inquiry Into Immoral
Conditions Begins Today

Muncie, Ind., Feb. 12.—Alleged immorality in Muncie, in which young girls have been victims, will be made the basis for an exhaustive investigation by the Delaware grand jury which convened today at the order of Circuit Court Judge Deareh.

The judge in his instructions to the jury declared that while conditions here were no worse than elsewhere, they are sufficient to warrant a thorough probe.

Alleged liquor law violators are also being investigated.

J. A. HEMENWAY DIES

Booneville, Ind., Feb. 12.—The body of former United States Senator James A. Hemenway, 62, who died at midnight Saturday at Miami, Fla., was expected to reach Booneville today. The funeral probably will be held at 3 p. m. Tuesday at the Hemenway memorial church, who Hemenway gave to Booneville in memory of his mother.

TO GIVE CARD PARTY FOR SCHOOL MILK FUND

Psi Iota Xi Announces Plan to Raise
Money For Milk Lunches—
Extends to All Buildings

248 A DAY SERVED LAST WEEK

The Psi Iota Xi sorority will give a charity card party at the Elks club Wednesday, February 22 to provide funds to finance the milk fund with which milk lunches for children are purchased.

The milk lunch has been extended to all five school buildings of the city—The Havens, Jackson, Graham Annex, Washington and St. Mary's. This year is the first time since the milk lunch project was started that it has been possible to provide lunches for pupils of all the buildings.

The milk lunch is confined to the first and second grades of each building and each child receives one-half pint a day.

During the past week, 248 lunches a day were served, which indicates the expense of the project.

The milk lunches were started by the Woman's council, a special committee composed of Mrs. Harry Lucas, Mrs. Allie Aldridge and Mrs. H. S. Havens being in charge at the present time. The sorority financed the work.

A new plan will be tried for the next charity card party and no invitations will be sent out. Further information will be given.

DAY OBSERVED IN COUNTY SCHOOLS

Lincoln's Birthday Celebrated With
Special Program Sent Out by
County Superintendent

FLAGS ON SCHOOL BUILDINGS

Exercises Will be Held in Rushville,
Senior High School Wednesday—
In Junior H. S. Friday

The Rushville City schools and the schools in the county were today paying tribute to Abraham Lincoln, the occasion being in memory of his birthday anniversary. In the county schools, many were having programs as suggested by County Superintendent B. D. Farthing.

Teachers spoke to their pupils today concerning the Emancipator, and a program will be followed out Wednesday in the high school. The Junior high school held appropriate exercises last Friday. Flags were displayed today in all of the school buildings.

On account of the two birthdays this month, the observance of both with appropriate exercises was urged by Mr. Farthing in the county schools, who called attention to the facts in the life of Lincoln and Washington. His message to the school principals is as follows:

"From the very beginning of time there has ever been a trait of mankind for hero worship. There is no one who does not hold in his mind, as his ideal some person after whom, consciously or unconsciously, he patterns his own life. Therefore the manner of person whom he has held up as an ideal and the extent to which he puts forth effort to study that character determines in a large measure his own character and the course he pursues in life's battle. And especially is this true in childhood because that is the time when impressions are easily made and life is so real. It is the time when the imagination is so vivid and the time when very often the child takes the man or woman of history or legend, or perchance a character in fiction, and may be an actor or actress of the stage or screen, as his ideal and companion, and certainly just as real to him as his own associates with whom he plays.

"This being the case, how necessary it is that the children of the present day be given a chance to pattern after given ideals of the highest type.

"The month of February brings the birthday anniversary of two of our greatest men—George Washington and Abraham Lincoln. In the lives of these men are found very exciting and interesting things; namely, frontier life and adventure, Indians and exciting hunting experiences, long years of warfare—and many other things which have the fascination and intense interest of holding any normal child almost spell-bound.

"And further, the names of Washington and Lincoln should be associated in the minds of our children with America, and what she stands for, with love of country, with respect for the flag, and with true patriotism—in other words there should be instilled into their minds the Hundred Percent American idea. And so these two birthdays not only offer a chance to give the children an insight to a greater knowledge of leaders and heroes of our country, but affords also an excellent opportunity for Americanization work—a fine chance to plant in the heart of every child in America a great fervor and love for his country.

"Indiana was the home of Abraham Lincoln during the most vital and important part of his boyhood. But it is to be noted that Indiana has never given appropriate recognition of that fact. The Indiana Lincoln Memorial Association, a new and voluntary organization of private citizens, is undertaking to raise funds for erecting a proper memorial in honor of Lincoln's youth, at or near the spot where the Lincoln Cabin stood. The Lincoln Association feels that all our people, young and old should pay increased attention

LEGISLATORS TO PUSH AHEAD WORK

Leaders Are Anxious To Keep Their
Nose On Grind Stone Until
Session Closes

NO WEEK-END HOLIDAYS

Many Important Measures Remain To
Come Before The Two Divi-
sions Of Law Makers.

BULLETIN

Indianapolis, Ind., Feb. 12.—The state soldier bonus was approved by the house today 79 to 14. It now goes to the senate and if approved it will be submitted to a referendum in the next general election.

The measure provides \$10 for each month any Indiana man or woman spent in war service during the world war or Spanish-American war, not to exceed \$250.

Indianapolis, Ind., Feb. 12.—Little work was done today in the morning session of the legislature which met in a joint session of the house and senate to observe Lincoln's birthday, soon after convening.

Before going into session, the senate passed two bills and killed one. It passed Senator Loehard's bill prohibiting county and townships from incurring expenses in proceeding on highway plans until bonds can be issued. The vote was 34 to 9.

A bill of Senator Hodges providing that street intersections may be paid by abutting property owners instead of city, was defeated by a vote of 20 to 14.

Repeal of the law providing school building floors be at least three feet above the ground was provided in a bill introduced in the house by Miss Elizabeth Rainey.

Fourteen representatives introduced a bill providing for uniform tax receipts throughout Indiana.

Senator Hays introduced a bill in the afternoon session requiring the publication of the declaration of independence in every history text book used in Indiana schools.

Indianapolis, Ind., Feb. 12.—Laboring under the lash of leaders who demand more speed to avert a legislative jam during the closing days of the session, members of the general assembly today prepared to hold their noses to the grind stone until March 5. Lieutenant Governor Branch, presiding over the senate and Speaker Morgan in the house, said there would be no more week-end adjournments.

Every indication was that the senate would comply with the request of Governor McCray and appropriate \$2,000,000 to complete the reformatory at Pendleton. The house provided only \$1,500,000 and the governor spoke with some assurance when he said the senate would rectify the errors of the house. If it does not, the legislative faces the executive threat of a special session to appropriate enough money to finish the job at Pendleton when the \$1,500,000 is spent.

The appropriation bills and other recommendations of Governor McCray will be taken up and disposed of before other matters of importance are considered in the house, Speaker Morgan said. The appropriations were on schedule for final consideration in the house today. The next bills of importance in the house, Morgan said will be:

1. The soldier bonus bill granting \$10 to every ex-service man and woman in the state and soldiers of the Spanish-American war for each month they spent in government service, subject to a referendum.

2. The Moorehead bill which would prohibit all commercial sporting events in Indiana on Memorial Day, including the annual 500-mile automobile race on the Indianapolis Motor Speedway.

Both the bonus and the Memorial Day bills attracted wider public interest than any other pending legislation, leaders agreed.

It was thought likely the appropriation bill, providing money for state institutions and government departments, would receive the stamp of house approval this week and be

Judge Sparks Sustains Plea In Abatement Of Remonstrators In
Hodges Branch Case

MILROY COMPANY DEFUNCT

Court Awards H. B. Wilson, W. L. McKee \$1,223.50 Judgment And
Appoints A Receiver

Several court matters have been disposed of in the circuit court, including several cases dismissed, and two new suits have been placed on file.

The cause of the Hodges Branch drain which was heard Saturday on the plea in abatement, was abated, and the costs in the matter was assessed against the City of Rushville.

The case of Hiram B. Wilson and Wylie L. McKee against the Metal Specialties Manufacturing Company of Milroy, was heard today, and the plaintiffs were awarded \$1,223.50 and costs on their complaint on a note. The court further found that the corporation was not managed properly, and Thomas E. Allen was appointed receiver.

In the case of Edna Miller against Burton and Myrtle Miller against whom a jury awarded the plaintiff \$4,500 judgment in January on an alienation case, the defendants have filed a motion for a new trial.

Elizabeth Adams Miller is plaintiff in a new suit placed on file against Building Loan Association No. 10, in which the plaintiff de- Miller made a withdrawal and that it count.

In this suit the plaintiff alleges that she made a deposit for which she did not receive credit. It is asserted by the defendants that Mrs. Miller made a withdrawal and that it was placed in the column for deposits by mistake and Mrs. Miller is demanding this sum and costs in the case.

Valentine Ripberger and Merlin Cochran are plaintiffs in a complaint against Herman Stevens, the action being to collect on a note demanding \$500 judgment.

Other court cases acted on, included the following:

John H. Ziegler against Sylvester Kirkpatrick and Howard Ewbank, a complaint for injunction and restraining order, with special judge, John Craig of Greensburg, was dismissed by agreement of parties.

James D. Scott against Hutchinsonson

ing Terms of Law

Nine pieces of Rush county real estate, one of which is located in Rushville city, were sold for delinquent taxes this morning by Frank Lawrence, county treasurer, at the treasurer's office in the court house. Some of the pieces of land and city lots contain buildings.

All of the real estate was purchased by Walter E. Smith of this city. The law provides that the owners of the property, which were advertised for sale to pay delinquent taxes, may redeem the property within two years.

The amounts listed as delinquent taxes on the property offered for sale today included this year's current taxes, and if the owner fails to redeem the property within one year, the purchaser pays the taxes for the second year. In the event that the property is redeemed within two years, the owner must pay the purchaser the year's taxes paid for the second year, together with six percent interest. After two years, the property goes to the purchaser at the delinquent tax sale if not redeemed.

sent to the senate:

The Barker bill repealing the absent voter law which failed of passage in the senate Friday for want of a constitutional majority, is expected to be brought up for passage again as soon as enough friends of the measure are present in the upper branch to assure a favorable outcome.

A measure which drew the united fire of organized labor unions is the Beardsley bill permitting creditors to levy on a person's wages for payment. It has been tentatively approved by the senate in adoption of a committee report recommending passage. It will come up for final consideration this week. Similar bills have been defeated in previous assemblies, because members take the position that to vote such a bill would be to sign their own political death warrants.

One of Governor McCray's recommendations—the Penrod bill to abolish the office of reporter of supreme court and confer his duties on the clerk—was on the slate for final consideration in the senate.

Leaders of the republican majority were apprehensive of another democratic outbreak such as nearly disrupted the session last week. Democratic members of both houses and senate were prepared to "stand on their constitutional rights" and oppose what the termed the "steam roller tactics" brought into play on the appropriation bill in the house.

THERE IS NO DISCHARGE:

There is no man that hath power over the spirit to retain the spirit; neither hath he power in the day of death; and there is no discharge in that war.—Ecclesiastes 8: 8.

England Agrees to Pay

England is the only debtor nation that to this date has evidenced a desire to liquidate its war loan debt to America. And America has been exceedingly generous in this matter of settlement—extending the payments for 62 years at a rate of interest below what the government is paying to the holders of Liberty and Victory bonds. England will pay us an average of \$237,000 per day, principal and interest, for 62 years—nearly \$75,000,000 per year.

This will put an end to the propaganda, so vigorously prosecuted by the international bank group for the cancellation of the debt. England is indebted to Wall street for an equal amount—and we are waiting to hear of any reduction in that interest rate.

America has some debt of its own to pay as a result of our participation in the war. We have a total of \$22,000,000,000 with an interest account of nearly a billion dollars per year. If we pay \$1,000,000 per day, every working day of the year for 72 years, the amount will be nearly balanced. That's a real nice heritage for our children and our children's children—and it's only fair and just that we demand settlement from every borrower.

In justice to England, as well as to the people of America, our hired men at Washington should now insist on payments from these debtor nations who seem to have plenty of money to construct big navies, big aero and submarine fleets and keep millions of men under arms. America loaned this money to secure peace in the world—not to promote war. Let's exercise a little business sense and forget some of this sentimental nonsense until our own people get a square deal.

The least important things in any creed are ceremony and dignity.

Cooperation

As a member of the Senate, Mr. Harding learned that it has been a quite common custom for administrative departments and bureaus to put in requests for appropriations in excess of what they really need with expectation that Congress will cut the amount and eventually give them the proper appropriation. Sometimes that policy resulted in appropriations too large for some bureaus and too small for others. The evil is one that President Harding has been trying to overcome, and with good results. In his recent address to the Government Business Organization, he said in part:

"Very significant and encouraging is the cooperation between Congress and the Executive in connection with estimates for appropriation. It is the endeavor of the President to present to Congress calls for funds that are sufficient and no more than sufficient to carry out approved policies. The Budget and Accounting act places no limitation upon the power and right of Congress to increase or decrease estimates submitted. This is in accord with the spirit of our institutions and is as it should be.

"It is my hope and expectation that as the budget procedures develop the estimates transmitted to Congress will be so carefully prepared and will present so accurate a picture of the real operating needs of the Government as materially to lighten the burden of the appropriating committees. But it is not expected or desired that Congress should relinquish any of its prerogatives regarding public funds."

Lincoln's Example An Inspiration

By ROBERT E. MANSFIELD

Today the American people pause to pay tribute to, and set their seal of approbation upon the life and character of Abraham Lincoln. It is fitting, and it is also helpful to citizens of the republic that, once a year, on the occasion of his birthday anniversary, they should commemorate his life and work, for they typify the highest qualities and ideals of the American spirit.

In his lowly birth and early years of poverty and deprivation Lincoln appeals to the great majority of his countrymen whose lives are passed in comparative obscurity, and whose daily round of duty is laborious and dull. They find inspiration in his life and achievements; in the fact that from this inauspicious setting rose the man whose wisdom and patience saved the nation in its greatest crisis.

Lincoln's career furnishes an example, and an enduring assurance of the possibilities of American citizenship, and the democracy of our national life; of the ephemeral qualities of wealth and position, and of the ability of one possessed of courage and capacity, endowed with a vision and supported by a firm faith in the right, to triumph over the material handicaps of life.

Lincoln does not shine upon us in spotless splendor, or stand out, in cold isolation, as do some of the great characters of history. That which endeared him to us, and caused him to become forever enshrined in the hearts of the American people was his human qualities. He walked their daily walks, lived their daily lives, spoke the vernacular of the common people, loved, sinned, and suffered as do common mortals.

The lesson of his achievement is in his unselfishness, his unselfish consideration of others; his concentration upon problems wholly unrelated to self. And in this he was a soul apart from most men of his time, and of the present day, who see life through their own selfish hopes and fears. In this ability to think broadly of the welfare of all his countrymen, he typified the spirit that should animate all Americans.

The late Henry Watterson in his estimate of Lincoln said: "Where did Shakespeare get his genius? Where did Mozart get his music? Whose hand smote the lyre of the Scottish plowman and stayed the life of the German priest? God, God, and God alone; and as surely as these were raised up by God, inspired by God, was Abraham Lincoln; and a thousand years hence no drama, no tragedy, no epic poem will be filled with greater wonder, or be followed by mankind with deeper feeling than that which tells the story of his life and death."

Dempsey Will Not Fight Wills

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 12—Out of the tangled muddle into which the heavyweight division was tossed by all the recent activities, only one thing seems certain—Harry Wills will not get a chance at the heavyweight title.

Wills may be the outstanding figure among all the challengers for Jack Dempsey's crown, he may be the logical opponent for the champion, and all that, but he will never get into the ring with Dempsey, because there is no place in which the ring can be pitched.

Feelers were sent out to seven states by parties interested in the proposed bout when it was being agitated in the middle of the summer. The feelers came back cold. Seven governors said: "Under no circumstances."

All of them gave the same grounds that it was not a good thing for boxing and not a good thing for the public. Its after effects would be too dangerous.

Promoters generally agreed that it was a "risk" to attempt to stage the bout. Conscience and scruples are not necessarily a part of every promoter's makeup. Some of them would do anything and take a chance for the money that would be in it. Others are not that way.

One very prominent promoter had the following to say about it:

"Attempts were made to find a place for Dempsey and Wills to get together. Attempts should have been made to show Wills that he was not being discriminated against by the promoters. Official sentiment was found to be so overwhelmingly against the match that plans were abandoned.

"No one will say officially that the

bout cannot be staged, but it never will be put on. For instance, Gov. Smith will not have to take the political chances of refusing to grant permission for the bout in New York, for the simple reason that he has not been asked and will not be asked for a permit. The word has been passed out to all interested to "lay off" and instructions of that kind are always obeyed."

The difficulty in promoting a heavyweight championship bout between two white men is tremendous and with the color question injected, it is impossible. Gov. Miller refused to permit the Dempsey-Carpentier fight in New York although Tex Rickard offered to turn over part of the receipts to a fund for disabled soldiers. The governor took the stand that it was a prize fight and that he did not think it could be classed as a boxing exhibition within the meaning of the law.

Wills knows how futile it would be for him to demand the bout and so does his manager, Paddy Mullins. That is one of the reasons why they have been taking a "back seat" when all the other contenders were storming the promoters and doing all kinds of loud talking. He is being properly advised and he is intelligent enough and man enough to know that the breaks are against him and that they will not break.

Without full knowledge of the facts, a part of the public will always think that Jack Dempsey was afraid of Wills and that he ran away from him. The fact of the matter is that Dempsey has always wanted to meet Wills, not only because he felt sure his title would not be endangered, but for the reason that Wills would be almost as big a draw as Carpentier was. In these days they figure their ability to get them into the arena more than their power to sock.

IT HAPPENED IN RUSHVILLE

And Is Happening to Rushville People Every Week

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Wm. Ash, 511 N. Sexton St., Rushville, says: "I can say a good word for Doan's Kidney Pills for I have used them several times when my back has been lame and sore. My kidneys were weak and felt dull and heavy and the secretions were too free in passage. I used a box of Doan's Kidney Pills which I purchased at Johnson & Company's Drug Store and they completely relieved me of the trouble. Another member of my family has also used Doan's and has found them very satisfactory."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ash had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Advertisement.)

No more Rheumatism

Suffering has gone from your face, mother!

S. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Go Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the twinges and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run down, tired men and women, beautiful complexion, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. Hittin' 'Em & Missin' 'Em

Another week ahead of us. Practice had this week gang, and show the Garfield team of Terre Haute a hot time Friday. They can be defeated, as was shown last Friday when Crawfordsville romped away with them.

ANYWAY, DON'T WEAKEN

If you once get ahead, stay there. Don't weaken. If you can't get ahead, keep fighting. Don't weaken.

MANILLA HAS A CUP NOW

Hand it to Manilla. They finally won a cup by defeating Carthage Saturday night in the final game of the tourney up there. Manilla had a good chance to win the cup here, but when the Webb team fell down, we just had to give it to Milroy.

WE WONDER IF ANYONE HAS CALLED HATTIE ABOUT OLD SHELBYVILLE

Moscow, we wish you all kinds of success at the Tri-State tourney Friday and Saturday. We'd like to see you cop the honors. Don't let 'em get cold feet, Coach Means.

YOU WANTA WATCH THESE RALLIES

Milroy dropped a close one Saturday night, when an unknown foe staged a rally in the last half. Jamestown came out ahead, 26 to 22.

What will Webb do to Moscow Tuesday night? Maybe it will be Moscow doing something to Webb.

WE ARE POOR GUESSERS, HAD GREENSBURG FIGURED TO WIN AT CARTHAGE, BUT EVEN CARTHAGE WALKED AWAY WITH 'EM. RUBY, CARTHAGE FLOOR GURD, DID THE WORK.

Headlee and Reynolds, college students, and former R. H. S. players, were the bright lights on the Glenwood team Saturday in the tourney at Fairview. Reynolds snagged 10 goals from the foul line.

Newcastle had a hard time defeating Knightstown Friday night, and it was only in the last few minutes that the game was won, 42 to 37. We wouldn't bank too much on going to the regional, Newcastle.

ANOTHER BAD GUESSER

Newcastle also is a poor guesser. They said Rushville would chalk up another victory over the Cathedral team. We kinda thought so ourselves, Newcastle, but it's a hard job to beat the Irish, you know.

Milroy plays down at Greensburg Thursday night. Milroy ought to beat 'em worse than Carthage did Saturday afternoon.

KEEP MAILIN' 'EM TO HITTIN' 'EM

THEIR TIME IS COMING

Richmond still has a clean record of 19 straight games, with Dayton as their last victim. Next Friday they will make it their 20th straight, playing Cathedral at Indianapolis. On the next night, Saturday, Feb. 17, we're guessin' they're gonna lose. They play at Bedford.

LET'S UPSET THE BASKETBALL WORLD. BEAT GARFIELD FRIDAY NIGHT, RUSHVILLE, AND SPRING A SURPRISE.

MAKE 'EM SNAPPY FOLKS

Hittin' 'em likes to get mail, but the shorter, the better. Keep mailin' 'em to Hittin' 'em.

Jane Novak At Mystic

Smashing drama and big heart-
vak's first big R-C production a pie-
interest combine to make Jane Nor-
ture of unusually strong appeal to
all classes of theatre goers. It is
scheduled for showing at the Mystic
Theatre today and Tuesday. The
element of self-sacrifice on the part
of an elder sister for the younger
form the theme of this unusually
powerful tale of the open spaces of
the Northwest. The picture has
abundant thrills, one of which is a
hand-to-hand conflict between front-
iersman in a cabin and the sudden
and dramatic appearance of a dog
who carries off a big share of the
honors. Critics are hailing "Colleen
of the Pines" as a personal triumph
for Miss Novak.

WASTE LANDS TO OFFER PROBLEMS

Marked Progress is Being Made in the Program of Preserving National Forests of East

URGE STATE COOPERATION

Over Two Million Acres Have Already Been Acquired for Forests in 11 Eastern States

(By United Press)

Washington, Feb. 12.—Marked progress is being made in the program of preserving and adding to the national forests of the east, the National Forest Reservation Commission of the agricultural department stated in a report of its 10 years of labor.

More than 200,000,000 acres of cut-over waste and unproductive forest land in the east offers a vast problem, which can only be solved by local and state co-operation with the government, the commission stated. This land must be made to produce again, or the east will in a comparatively short time find its forest resources exhausted, the commission warns.

Over 2,000,000 acres have already been acquired by purchase for forests in 11 Eastern States during the 10 years that the commission has functioned. Of this area 440,000 acres are in the White Mountains, 74,000 in northeastern Pennsylvania, and 1,640,000 in the southern Appalachians and the Ozarks.

The report calls attention to the value of these forests for recreation and the extensive use that is being made of them by tourists. An additional use to which these Federal areas are put is for breeding wild game. There are now 10,000 white-tail deer on the White Mountain National Forest and 2,000 on the Pisgah; elk have been placed on several forests and buffalo on one. On the Shenandoah National Forest in Virginia and West Virginia more than 30 bears were killed during the past season. Many of the streams have been stocked with fish.

The report cites the continued de-

HANDING HALF A MILLION DOLLARS TO THE KID

cline in the cut of Eastern timber, a billion feet having been shipped to the Atlantic Coast from the Pacific last year. As the Eastern timber is cut there is an enormous and continuously increasing area of cut-over waste and unproductive forest land, the total area of which now amounts to more than 200 million acres. The means employed by State, Federal and private agencies for making this land again productive are regarded as being entirely inadequate.

The greater portion of the forest area of the country is in the eastern states, where there are 300,000,000 acres of forest and potentially forest lands. When the exhaustion of the Pacific Coast timber takes place, the East will be entirely dependent upon the timber which is grown upon its present cut over lands. While in the opinion of the Commission the present area of the Eastern national forests is too small to contribute materially to the timber supply, it is believed that one of the most substantial contributions which the Eastern national forests are at present making and will continue to make towards assuring a future timber supply is their value as dem-

onstrations in directing the efforts of private owners.

Establishment of forests in states in which there are no forests at the present time, such as Ohio, Kentucky, Illinois, Vermont, Missouri, Oklahoma, Texas, Louisiana, Mississippi and the Lake States, was urged.

The Commission urges in its report that appropriations be resumed on their pre-war basis, in order that the purchase of lands for national forests may be extended to other Eastern States.

At an average price of \$4.45 per acre the Commission has authorized the purchase of 68,566 acres of land for Eastern national forests. This increases the total acreage to more than 2,200,000 located in 12 national forests in 11 states from Maine to Arkansas.

Of this purchase 29,502 acres will be added to the Allegheny National Forest in Warren, Elk, Forest, and McKean Counties, Pa., on the headwaters of the Allegheny River—one of the sources of the Pittsburgh flood waters. This is burned-over, cut-over, or second growth timberland, and includes some merchantable timber admirably serving the

purpose of soil protection and flood water control. The average price is \$3.02 per acre.

In eastern Tennessee the Unaka Forest is increased by 17,670 acres in Sullivan, Cocke, and Greene Counties—some of it well timbered, but most of it cut-over and burned. West Virginia gets 8,520 acres in Pocahontas and Hardy Counties; and Virginia 8,847 acres in Augusta, Shenandoah, Rockbridge and Bedford Counties.

Two thousand one hundred and seventy-six acres will be purchased in Burke, Watauga, and Avery

Mrs. Young Out With The Facts

States Tanlac Restored Her After 2 Attacks of Flu and 20 Years of Stomach Trouble

"For twenty years", said Mrs. Arminta A. Young, 1210 Harlan St., Indianapolis, Ind., "I have had stomach trouble and frequent attacks of biliousness. My nerves were wrecked and I became all run down. This was my condition, four years ago, when I had two attacks of Flu that left me in a worse fix than ever."

"Then in January, 1922, I had two other attacks of Flu and was unable to get out until March. In addition to indigestion, I was left with no strength and a severe bronchial cough. It was only after I started on Tanlac that I began to recover my health and strength."

"After taking four bottles of Tanlac my appetite became ravenous, indigestion disappeared and I was again able to do my housework. In October of last year I took two more bottles of Tanlac and since then I have been so strong and well that I can stand any amount of work. Tanlac is certainly grand."

Tanlac is for sale by all good druggists.

Over 35-million bottles sold.

WEEKLY STORE NEWS

From ALLEN'S

We want you to test our food stuffs because we know you will be pleased with them. Test them by eating them—the only satisfactory test.

Coffees are advancing, but we have enough of all of our grades contracted to last the rest of this month so we will be able to supply our trade at the old price for a short time yet.

We have just opened our last cask of kraut; we would tell you how many casks we have sold since last October, but you might think we were fibbing. When you come in for your next order of kraut and weiners ask the clerk.

Loyalty Flour is making new friends every day. At this time it looks as though all flours would be higher; better buy enough now to last until the new crop is marketed next summer. We have an attractive price on LOYALTY by the Barrel.

You can always depend on getting the best of fruits and vegetables at our store; we don't buy the second grade kind.

Brooms are another article that has advanced greatly in price. Last year broom corn was worth from \$250.00 to \$300.00 per ton; this year it is worth from \$500.00 to \$600.00 per ton. We bought our supplies early and our prices are based on last year's prices.
